Site 2889: Torca La Vaca

Surveyed by the Matienzo Expeditions 2008 - 2011

Version 2.11 - completed 17th May 2011 (southern extension 11_01 to come)

Printed full size, at 1:500, this survey requires a sheet about 240cm wide by 420cm long

Various pdf files of this version exist. The lowest quality, eg 2889-2_07-lq, has poorly rendered passage colour fills and outline but a small file size (approx 2Mb). The medium quality, eg 2889-2_07-mq, has reasonable passage colour. (approx 9Mb). The highest quality file, eg 2889-2_07-hq has a size of approx 120Mb.

Note 31.05.2010: Bang up from chamber over a by a tire blog on the left to a small chamber with a rock formation like a bear's head on the ceiling. Bang down a 3m climb into a rift. Follow rift to a 4m climb down. Belle were passed for descent but remains undescended. On the flight in down were choke. However, this could be bypassed by climbing up from the bear head chamber.

Note 31.05.2010 (cont) to a possible flat floor. Not explored.

Note 31.05.2010 (cont) Belle was descended to a choke in much gardening.

Note 31.05.2010 (cont) On way back approximately 200m to a chamber. Pass through tapsite on 2010 Survey and continue to a 3m climb up. Follow passage (Belle) to reached until a continuation on the right which leads to get small after 10m.

Note 31.05.2010 (cont) Return to climb up 3m and go through to a possible shaft coming from above. No way up - walking down the pitch and finding no location that a second shot by the tapsite and is an alternative route back to the climb down. Climb down and follow passage to a 4m climb down. Follow passage to pass a sump but impossible high heading photos. No descendable through. Passage ends heading off the second climb down. Return to the climb down and descend to a 3m climb down. Follow passage to a 3m climb down. Follow passage and pass two descended and one sump now on the one. Proceed bend from a massive sump. Pass through.

Note 31.05.2010 (cont) The flat rift start in the area said at the start of the cave series was climbed by Barry. Very tight and. Follow rift to a climb down. Follow passage to a climb down. Follow passage to a climb down. Follow passage
