Matienzo Caves Project 2026

description and other resources from the website

Complex passages below Endless Bedding Plane. p15 connects to passage from Pandemonium Chamber. Numerous holes in floor of EBP assumed to connect to passages below.

NOTE: The route northeast from station 07.234 drops down to stn 235, under and about 18m below Maximum Breakdown Chamber.
A climb up to the S reaches 07.239 from where it is possible to see up to station 147 in MBC, 6m above and 15m distant.

Scampi Lardos level offset for clarity

Summer 2026 extensions to be added.
Batches 26-18 and 26-19
