MATIENZO BATS IN CAVES PROJECT - RECORDING FORM

All records provided below should be an incidental result of your normal caving / exploration activities. Don't spend significant periods of time viewing live bats in order to gather information for this form! If you take note of features as you pass, then ANY data gathered is useful.

As a minimum answer sections denoted with an asterix (*). Where options are given, please circle the appropriate option(s).

| BASIC INFO | Cave Number* | | | Date of Record* | | | | | |
|------------|--|----------------------|---|-----------------|---|---|--|--------|--|
| | Cave Name (if it has one) | | | | | | | | |
| | Caver Names/Initials | | | | | | | | |
| BASI | (if you want to provide them) | | | | | | | | |
| | What was present? (please circle)* | | | | | | | | |
| | Bat droppings | | Bat Skeletons /carcass | | cass | Live Bats | | | |
| | If you can provide more information, please look at relevant sections below | | | | | | | | |
| DROPPINGS | Individual scattering (Single droppings) | | Groupings, but scattered over a wider are (Salt and Pepper dusting) | | | Large accumulations (Areas black with droppings, possible mounds concealing whats underneath) | | | |
| | Did you get a sample of the droppings? | | | | | | | | |
| | YES ¹ | | | | | NO | | | |
| | ¹ If YES, mark the pot with the cave number and place in a bag with this form. If you can describe where the sample was found on reverse of this form, or better yet mark on a printed survey and place in the bag with the sample. | | | | | | | | |
| - | Have Many Chalatons / Consesses have your sour? | | | | | | | | |
| KELETON | How Many Skeletons / Carcasses have you seen? | | | 1 | | | | | |
| SKELI | Skeletons / carcasses were scattered | | | | Skeletons / carcasses were grouped together | | | gether | |
| | | | | | | | | | |
| BATS | How many bats seen? (best gu | | | | | | | | |
| | Stationary - Active / A | lert | Stationary - Sleeping / H | | bernating | Flying | | | |
| | How were bats found - You can circle multiple choices | | | | | | | | |
| | Individuals, scattere | red Medium groupings | | | 5-30) | Dense cluster of closely packed bats (over 30 bats) | | | |
| | Any additional info you can provide as follows | | | | | | | | |
| | When not flying, how did they rest? Free hanging bat Bat flush to the wall Bat tucked in a crevice | | | | | | | | |
| LIVE B | Faceshape | Dat hash to the w | | | all | Dat tucked in a crevice | | | |
| П | Face with a nose leaf (horseshoe) | | | | Face with no nose leaf (normal) | | | | |
| | Body colour | | | | | | | | |
| | Brown | Black | | | Golden | | | | |
| | Belly colour Brown | Brown | | Black | | White / Cream | | | |
| | Size - On the scale below, indicate how big the | | | | | | | | |
| | the scale that isn't showing the size | | | | | | | | |
| | FEET | | | | | | | HEAD | |

Use the reverse of this form to provide any further information /or to make reference to any photos you may have taken etc. You can also annotate a survey printout if it will help. If providing dropping samples, please place labelled sample(s) and paperwork in a sealed bag.
